

Blocksize Capital

Institutional Pricing Guide

1. DIRECT X402 UNIT PRICING

Public paid HTTP routes use direct x402 per request. Raw-data defaults range from 0.002 USDC for core crypto to 0.008 USDC for supported equity bid/ask; packaged workflow prices can differ. Always use the live 402 challenge as the authoritative price and network list.

2. PRODUCTION ACCESS PATHS

Access path	Availability	Terms
Direct x402	Public HTTP	Live route price
Free tier (connectors)	Eligible users	15,000 credits/month
Developer	Free trial	EUR 49/month
Start-Up	Free trial	EUR 299/month
Business	Free trial	EUR 799/month
Enterprise	Contact sales	Custom

3. SUBSCRIPTION PLANS

Self-serve purchase routes are not exposed in production. The free monthly allowance is an evaluation licence with required attribution. Developer (5 feeds, 7-day history, 1 seat), Start-Up (50 feeds, 1-month history, 5 seats), and Business (350 feeds, 3-month history, 10 seats, State Prices, Slack SLA) start with a free trial at </go/free-trial>; annual billing is 15% off. Enterprise terms (unlimited feeds, commodities, SLA) require contacting Blocksize sales about an authenticated account plan.
