Institutional Pricing Guide

1. UNIT PRICING: CREDITS OR USDC

One price list covers every product: 1 credit = 0.001 USDC. Authenticated connector users spend free monthly credits; public HTTP routes charge the same amount in USDC per request over x402. Always use the live 402 challenge as the authoritative price and network list.

Product	Credits	USDC (x402)
Core crypto	2	0.002 USDC
Extended crypto	4	0.004 USDC
FX and metals	5	0.005 USDC
Tokenized equities	8	0.008 USDC
Pre-trade sanity check	100	0.10 USDC
Market brief	250	0.25 USDC
Price receipt	250	0.25 USDC
Macro snapshot	1,000	1.00 USDC
State divergence	500	0.50 USDC
Token quality	500	0.50 USDC
Solana token brief	1,000	1.00 USDC
Trader alpha pack	2,500	2.50 USDC

2. PRODUCTION ACCESS PATHS
